2.5

Certificates

HACKVISER

- CAPT (Certified Associate Penetration Tester)
- CWSE (Certified Web Security Expert)

HACKTHEBOX

- Pro Hacker - Rank
- HTB Top 0.02%

Experience and Projects

TEKNOFEST UAV COMPETITION 2023
Final 31st Place
Designed a military-grade communication system linking a Ground Control Station with a kamikaze UAV and an UGV, enabling real-time transmission of camera feeds, GPS coordinates, speed, control commands, and other critical data. The system is unique in handling high-volume, low-latency data securely and reliably.
