PROFESSIONAL SUMMARY

Passionate and certified penetration tester with expertise in web exploitation, network security, and securing Active Directory environments. Experienced embedded systems engineer with a strong background in UAV communication projects, consistently recognized among top ethical hackers.

CORE COMPETENCIES & SKILLS

- **Offensive Security:** Web Security, Network Security, Active Directory Security, Forensics, Reverse Engineering
- **Programming & Scripting:** Python, C/C++, Bash
- **Engineering:** Embedded Systems

CERTIFICATIONS & ACHIEVEMENTS

- **CAPT (Certified Associate Penetration Tester)** – Hackviser
- **CWSE (Certified Web Security Expert)** – Hackviser
- **Pro Hacker Rank** – Hack The Box (Top 10 in Türkiye)

EXPERIENCE & PROJECTS

TEKNOFEST UAV Competition 2023

Final 31st Place

- Designed a military-grade communication system linking a Ground Control Station with a kamikaze UAV and an unmanned ground vehicle (UGV).
- Enabled the real-time transmission of critical operational data, including camera feeds, GPS coordinates, speed, and control commands.
- Engineered a unique, secure, and reliable system specifically optimized for handling high-volume, low-latency data.

EDUCATION

Kayseri University

2023 – 2027 (Expected)

Software Engineering

- **GPA:** 2.61

LANGUAGES

Turkish, English, Arabic, Russian (Beginner)
